DRIVES OUT MALARIAL POISONING

Malaria is a disease which gradually destroys the strong, nourish-elements of the blood. When the malarial poison begins to absorb the rich, red corpuscles of the circulation, we see pale, sallow complexions and a general impairment of health. As the blood becomes weaker the appetite fails, digestion is disturbed, chills and slight fever are frequent, and in aggravated cases boils and eruptions break out on the fleth. Malaria is blood poverty, and the only way to cure the trouble is to enrich and purify the circulation. Nothing is equal to & & & as a blood purifier, and it is especially adapted to the cure of les because it contains no harmful minerals, and while ridding the system of the malarial germs, S. S. S. builds up the entire constitution by its fine tonic effects. If you are suffering with Melaria begin the use of S. S. S. and rid yourself of this weakening disease. Book on the blood and any medical advice desired sent free to the who write and request it. S. S. is sold at drug stores.

Arizona Mine Promoter Receives Judgment by Arbitrator for \$18,000 From Santa Rosalia Company.

Bisbee, June 30.-R. K. Clancy, a well known mining man, has won tentions against the Santa Rosalia Mining company whose properties lie in the state of Sonora, Mexico.

Some months ago Clancy and other stockholders of the company had a disagreement regarding the possession of certain stock in the company, but the matter was held Four C's company at Cananca, to arbitrate and make an award. Morrison of Bisbee and the attorney filed with the arbitrator his client's claims. The company failed to make

I. McReynolds, attorney for the com-

judgment. The decree, finding for cepted, and the court has given notice to Attorney McReyholds that unsame by her long imprisonment in less the award is settled within three days execution will issue and the amount be collected.

Under Mexican law, after such auaward is made it becomes a violation of Mexican law to transfer or attempt to transfer any part of the property at issue. The three days given for a settlement of the award expire Thursday.
